RUBBER STAIR TREADS WITH KEVLAR®

ROPPE

# Ridiculous durability is a serious need.

We engineered the world's first rubber stair treads with DuPont™ Kevlar® because your stairs are being put to the test every single day. From normal wear and tear to downright abuse, Roppe Rubber Stair Treads with DuPont™ Kevlar® will resist damage that detracts from the appearance and safety of your stairs – not just for a few years. For decades.

*After 4,000 cycles of simulated foot traffic, see how Roppe Rubber Stair Treads with Kevlar® compared to standard rubber treads.*

2

RUBBER STAIR TREADS WITH KEVLAR®

ROPPE

# Keep your design and reputation intact.

Roppe Rubber Stair Treads with DuPont™ Kevlar® resist unattractive and potentially dangerous damage from wear and tear far longer than other rubber stair treads.

Your design will keep that just-installed look for decades to come, saving time and money on cleaning, maintenance, replacements and repairs.

We're so confident in the ridiculous durability of Roppe Rubber Stair Treads with Kevlar®, we've backed them with the industry's longest warranty.

RUBBER STAIR TREADS WITH KEVLAR®

ROPPE

# 134 colors

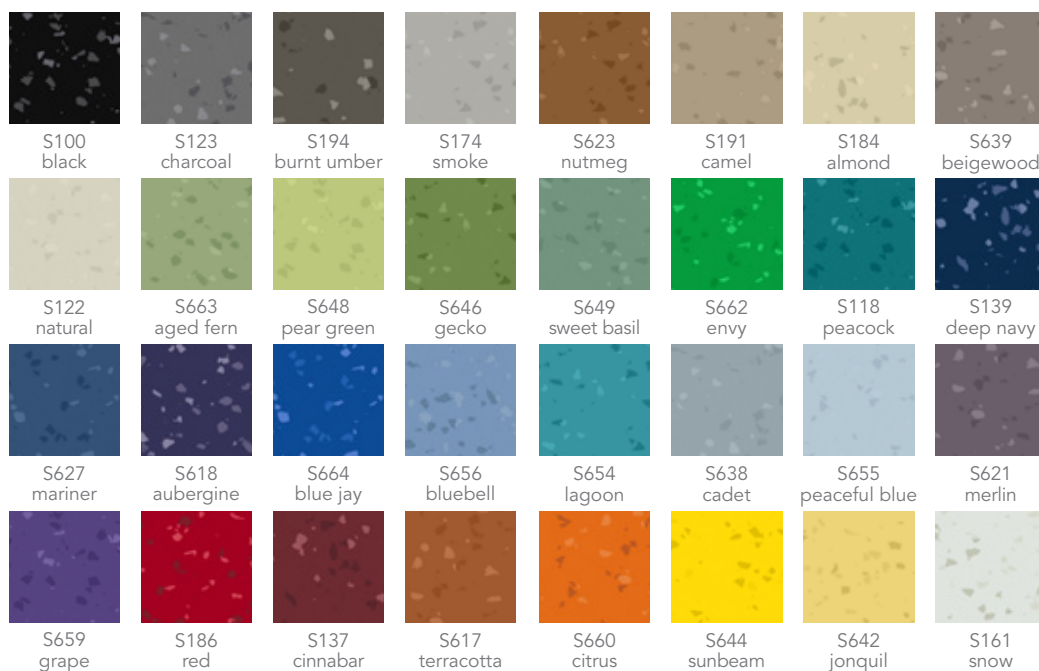

## 70 SOLID COLORS (for all rubber tread profiles)

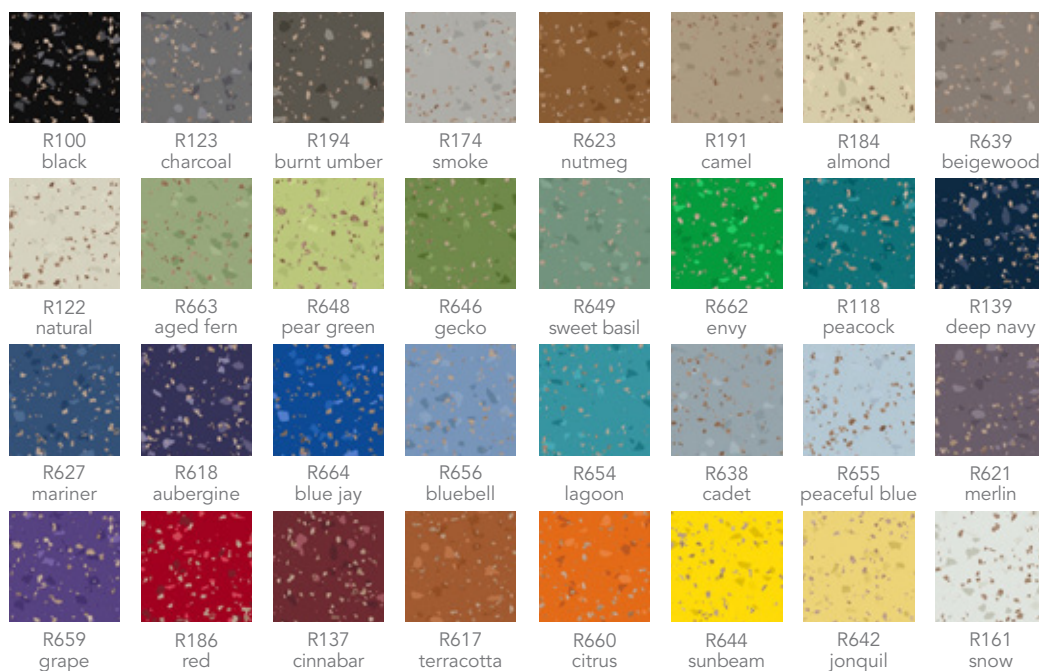

There are over 1,000 combinations of Roppe Rubber Stair Treads with DuPont™ Kevlar® to choose, so you'll never have to sacrifice design flexibility for durability.

# Symmetry and ReNew

## 3 2 SYMMETRY COLORS (for all rubber tread profiles)

## 3 2 RENEW COLORS (available in smooth, hammered and textured profiles only)

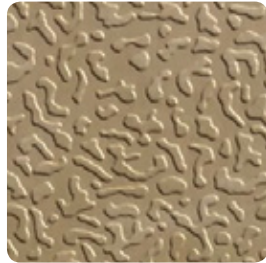

# eight profiles

## RUBBER TREADS (raised design)

92 low-profile  
36"-72" in 6" increments

93 textured  
36"-108" in 6" increments

94 square  
36"-108" in 6" increments

95 hammered with riser  
36"-108" in 6" increments  
99 hammered without riser  
36"-108" in 6" increments

96 vantage with riser  
36"-108" in 6" increments  
97 vantage extended depth  
36"-72" in 6" increments  
98 vantage without riser  
36"-108" in 6" increments

### tapered nose

Many Roppe treads have a tapered nose for a clean fit. They help reduce tripping hazards while providing a better finished look.

### relief cut

Many of our treads include a molded relief cut that aids in the installation of our treads on today's angled stairs.

## SPECIALTY RUBBER TREADS

60/61 hd smooth  
36"-72" in 6" increments

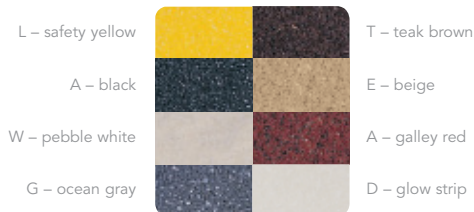

30/31 diamond  
30 available in 36"-108" in 6" increments  
31 available in 36"-72" in 6" increments

40/41 hd abrasive  
36"-72" in 6" increments

# Visually impaired strip enhancements.

Designed to improve safety for the visually impaired, Roppe Rubber Stair Treads with DuPont™ Kevlar® are available with grit strips and in contrasting colors. In addition, rubber detectable warning tiles help signal changes in elevation.

\* Abrasive strips can be added to rubber treads #30/31, #60/61, #92, #93, #94, #95, #96, #97, #98 and #99.

## QUICKSIX

- Free of Red List chemicals, PVC, phthalates and halogens.
- Made in the USA and meets FloorScore®, NSF332 Platinum and CHPS Criteria.
- Rubber Treads with Kevlar® fully conform with ASTM F2169, Type TS and provide unrivaled durability and reliability backed by our industry-leading 25-year warranty.
- Available in eight Profiles: Textured, Raised Circular Vantage, Raised Square, Low-Profile Raised Circular, Abrasive Strip, Smooth, Diamond and Hammered. Note: Custom lengths can be ordered in 6" increments up to 9' (2.73 meters) in Textured, Hammered, Vantage, Square and Diamond designs.
- Safety abrasive strips or rubber inserts and custom strips can also be added for extra traction or to aid the visually impaired. Available with self-illuminating photoluminescent abrasive glow strips for added safety in darkened conditions.
- Solid, Symmetry and ReNew\* color palettes available at a single price point within selected palette.

\* ReNew palette available only in three profiles: Smooth, Hammered and Textured.

## EXCELSIOR ADHESIVES AND MAINTENANCE

### Recommended Adhesives

TP-620 Pressure Sensitive Tape Adhesive

AW-510 Acrylic Wet Set Adhesive

EW-710 Epoxy Modified Urethane Adhesive

C-630 Water Based Contact Adhesive

EN-610 Epoxy Nose Filler

### Maintenance

Roppe products are easy to maintain using our new Excelsior maintenance products.
